

FIRST EVER

100% DECENTRALIZED

MATRIX PROJECT

DECENTRALIZATION

What does decentralization mean?
And what is your profit?

Decentralized marketing is built on a smart contract that provides you with maximum security and resilience.

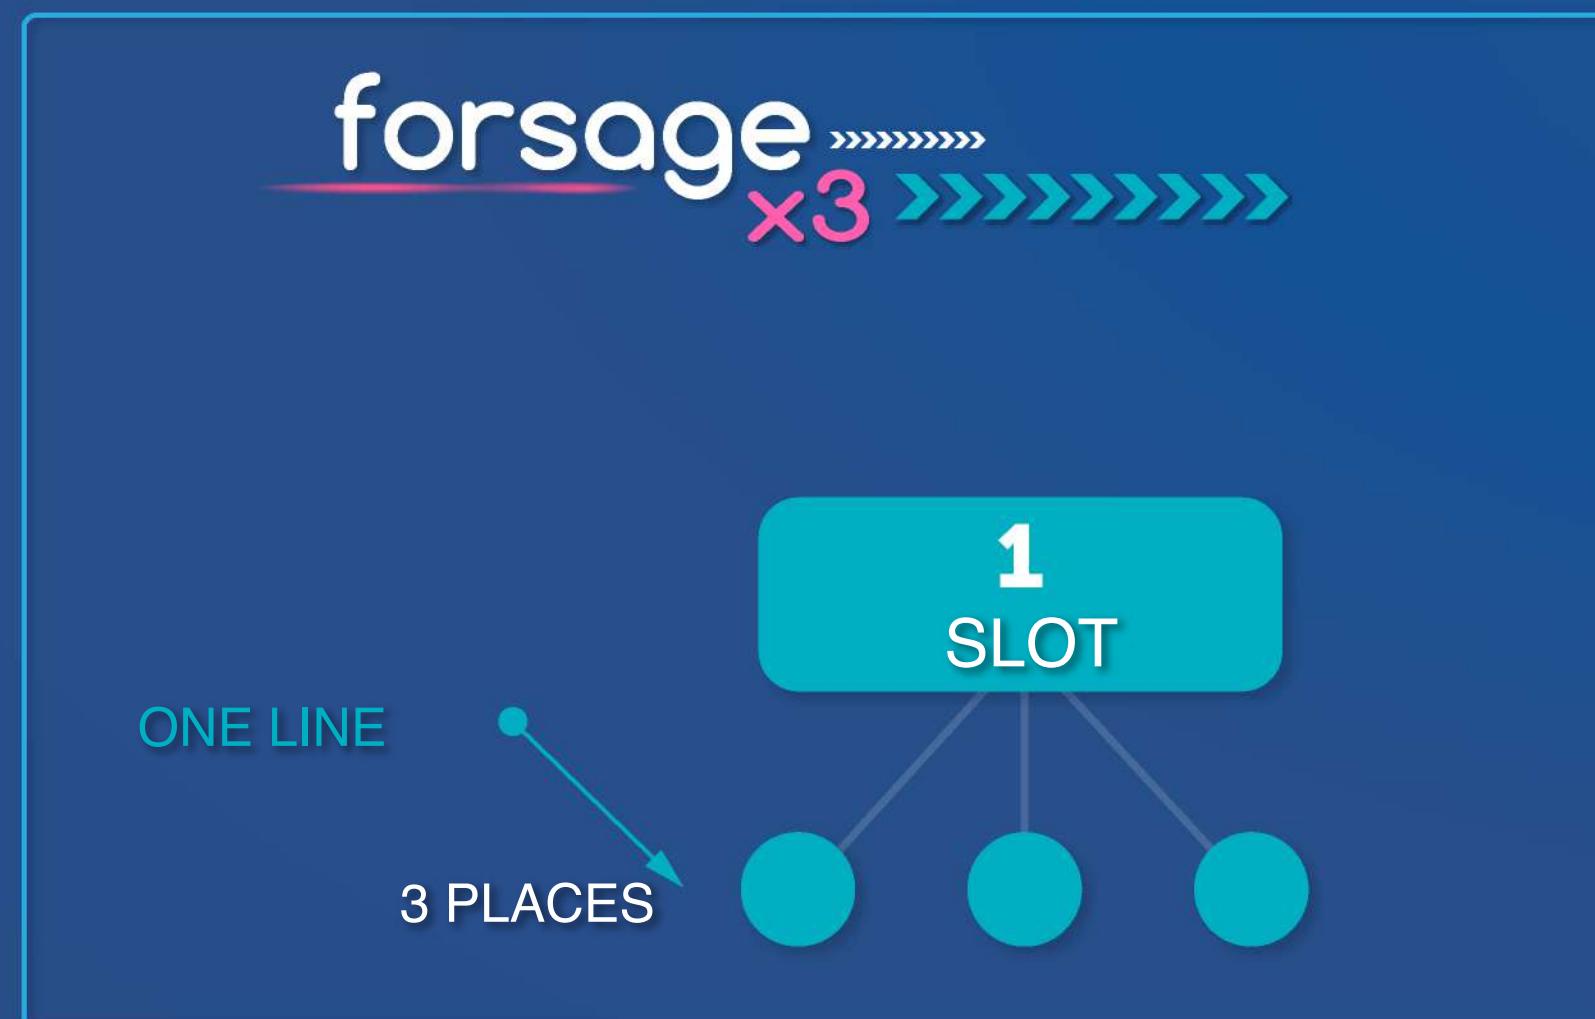

A smart contract is an algorithm, inside the Ethereum blockchain, cryptocurrencies are number one among those on which it is possible to create smart contracts.

Smart contracts, like cryptocurrencies, are decentralized. They work strictly according to the established program, without the possibility of changing working conditions. The code, which contains all the logic of the contract, is placed on the blockchain, and all calculations are provided by millions of computers around the world. This ensures that there is no risk of hacking the smart contract and stopping the project.

HOW DOES FORSAGE MATRIX MARKETING WORK?

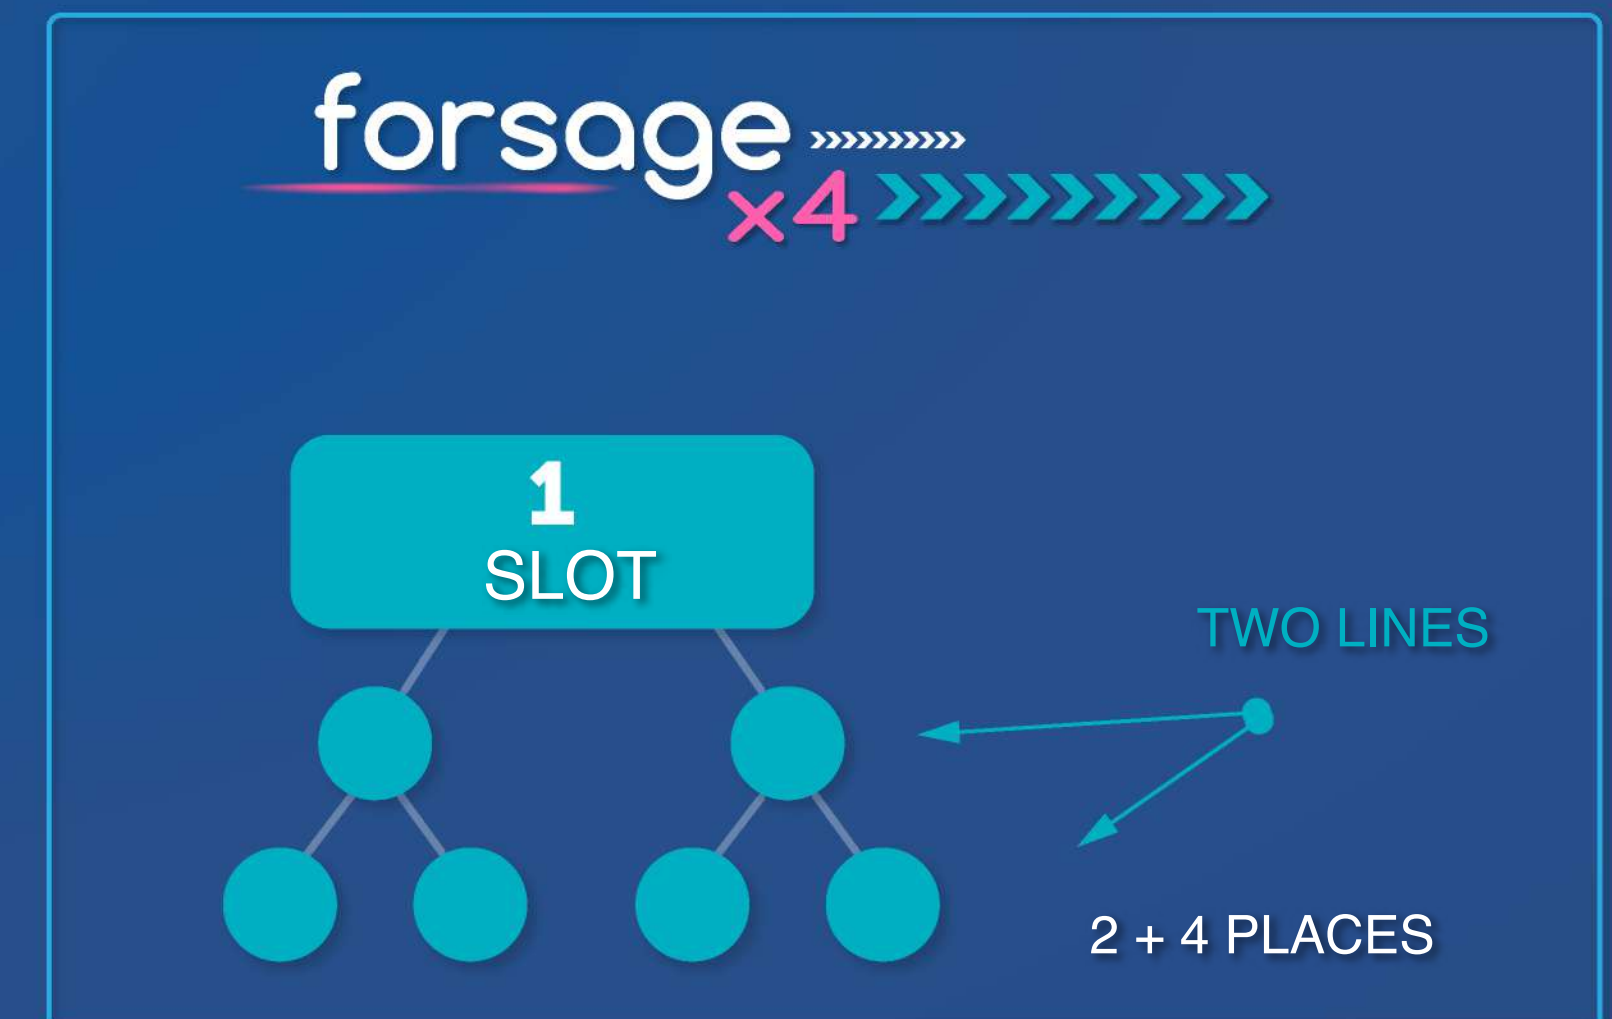

WITH
REFERENC
E

UNLIMITED
AUTOMATIC
REINVESTS

NO EXPIRATION
DATE OF THE SLOT

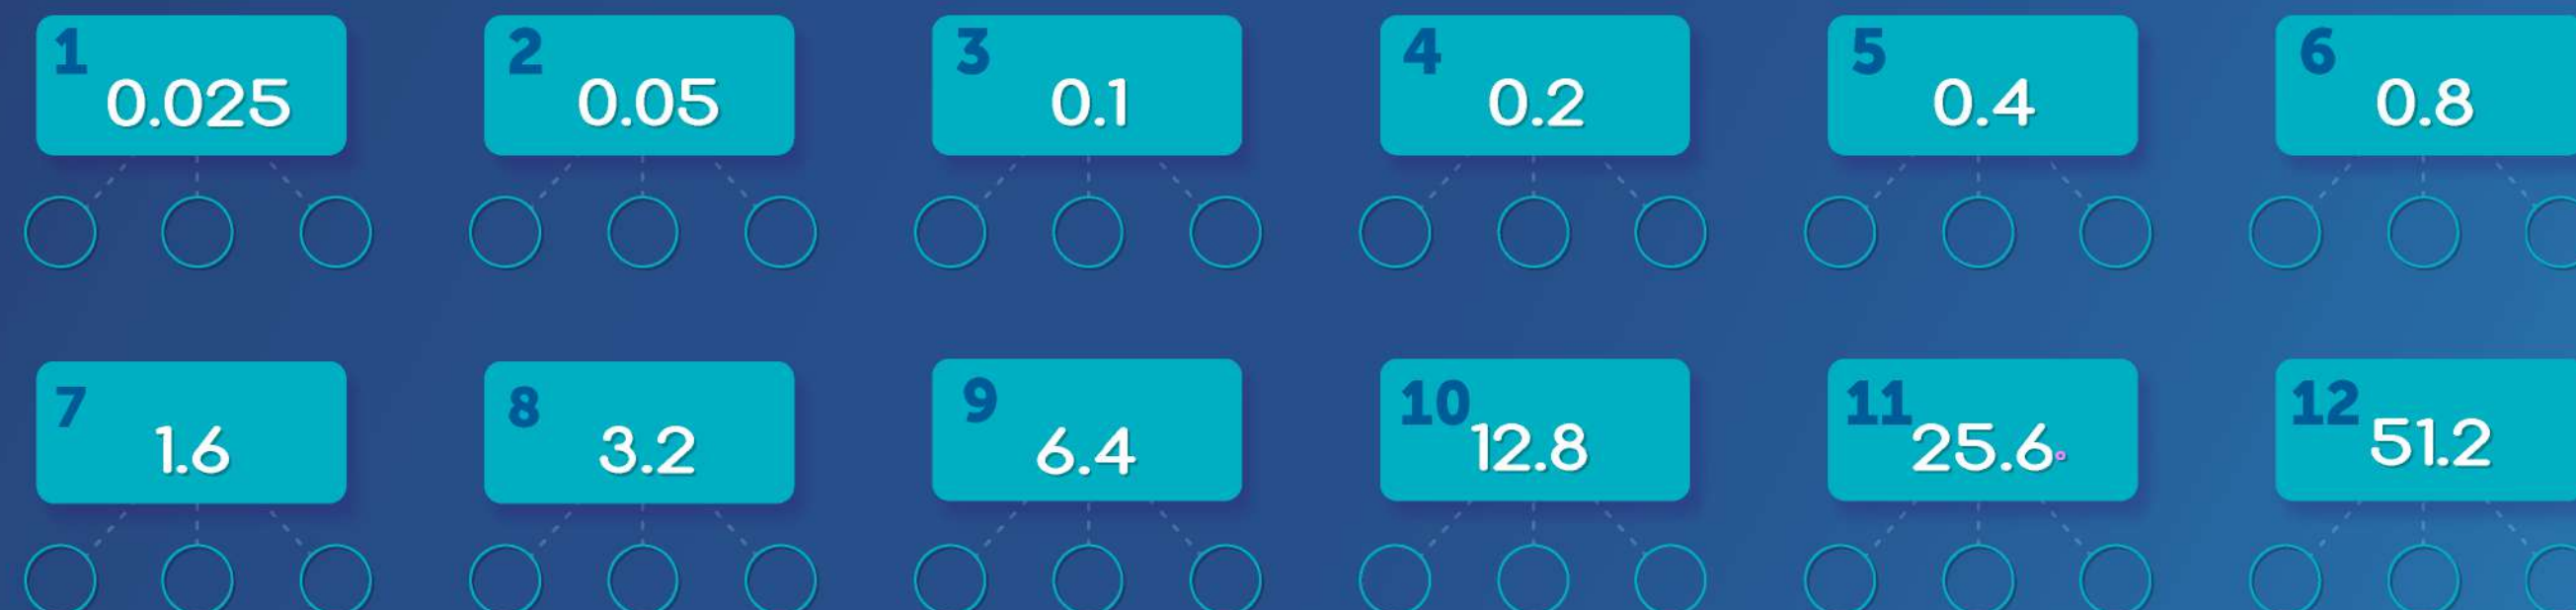

FORSAGE MATRIX MARKETING is a closed system, without deadlines for slots, with a limited number of places and an unlimited number of reinvests. In the matrix, the referral link is fixed the person who invited you. You always follow your superior partner, to each of the slots he activated.

In the **FORSAGE X3** program below you is three places in one line. In the **FORSAGE X4** program below you are two lines – 2 places in the first line and 4 places in the second. When you register in **FORSAGE**, you open both programs simultaneously.

SLOTS

forsage
x3

forsage
x4

In each of these two programs, **Forsage x3** and **Forsage x4** have 12 slots. All similar and work in the same way.

Each subsequent slot is 2 times more expensive than the previous one. Both income and profits from them are twice as high!

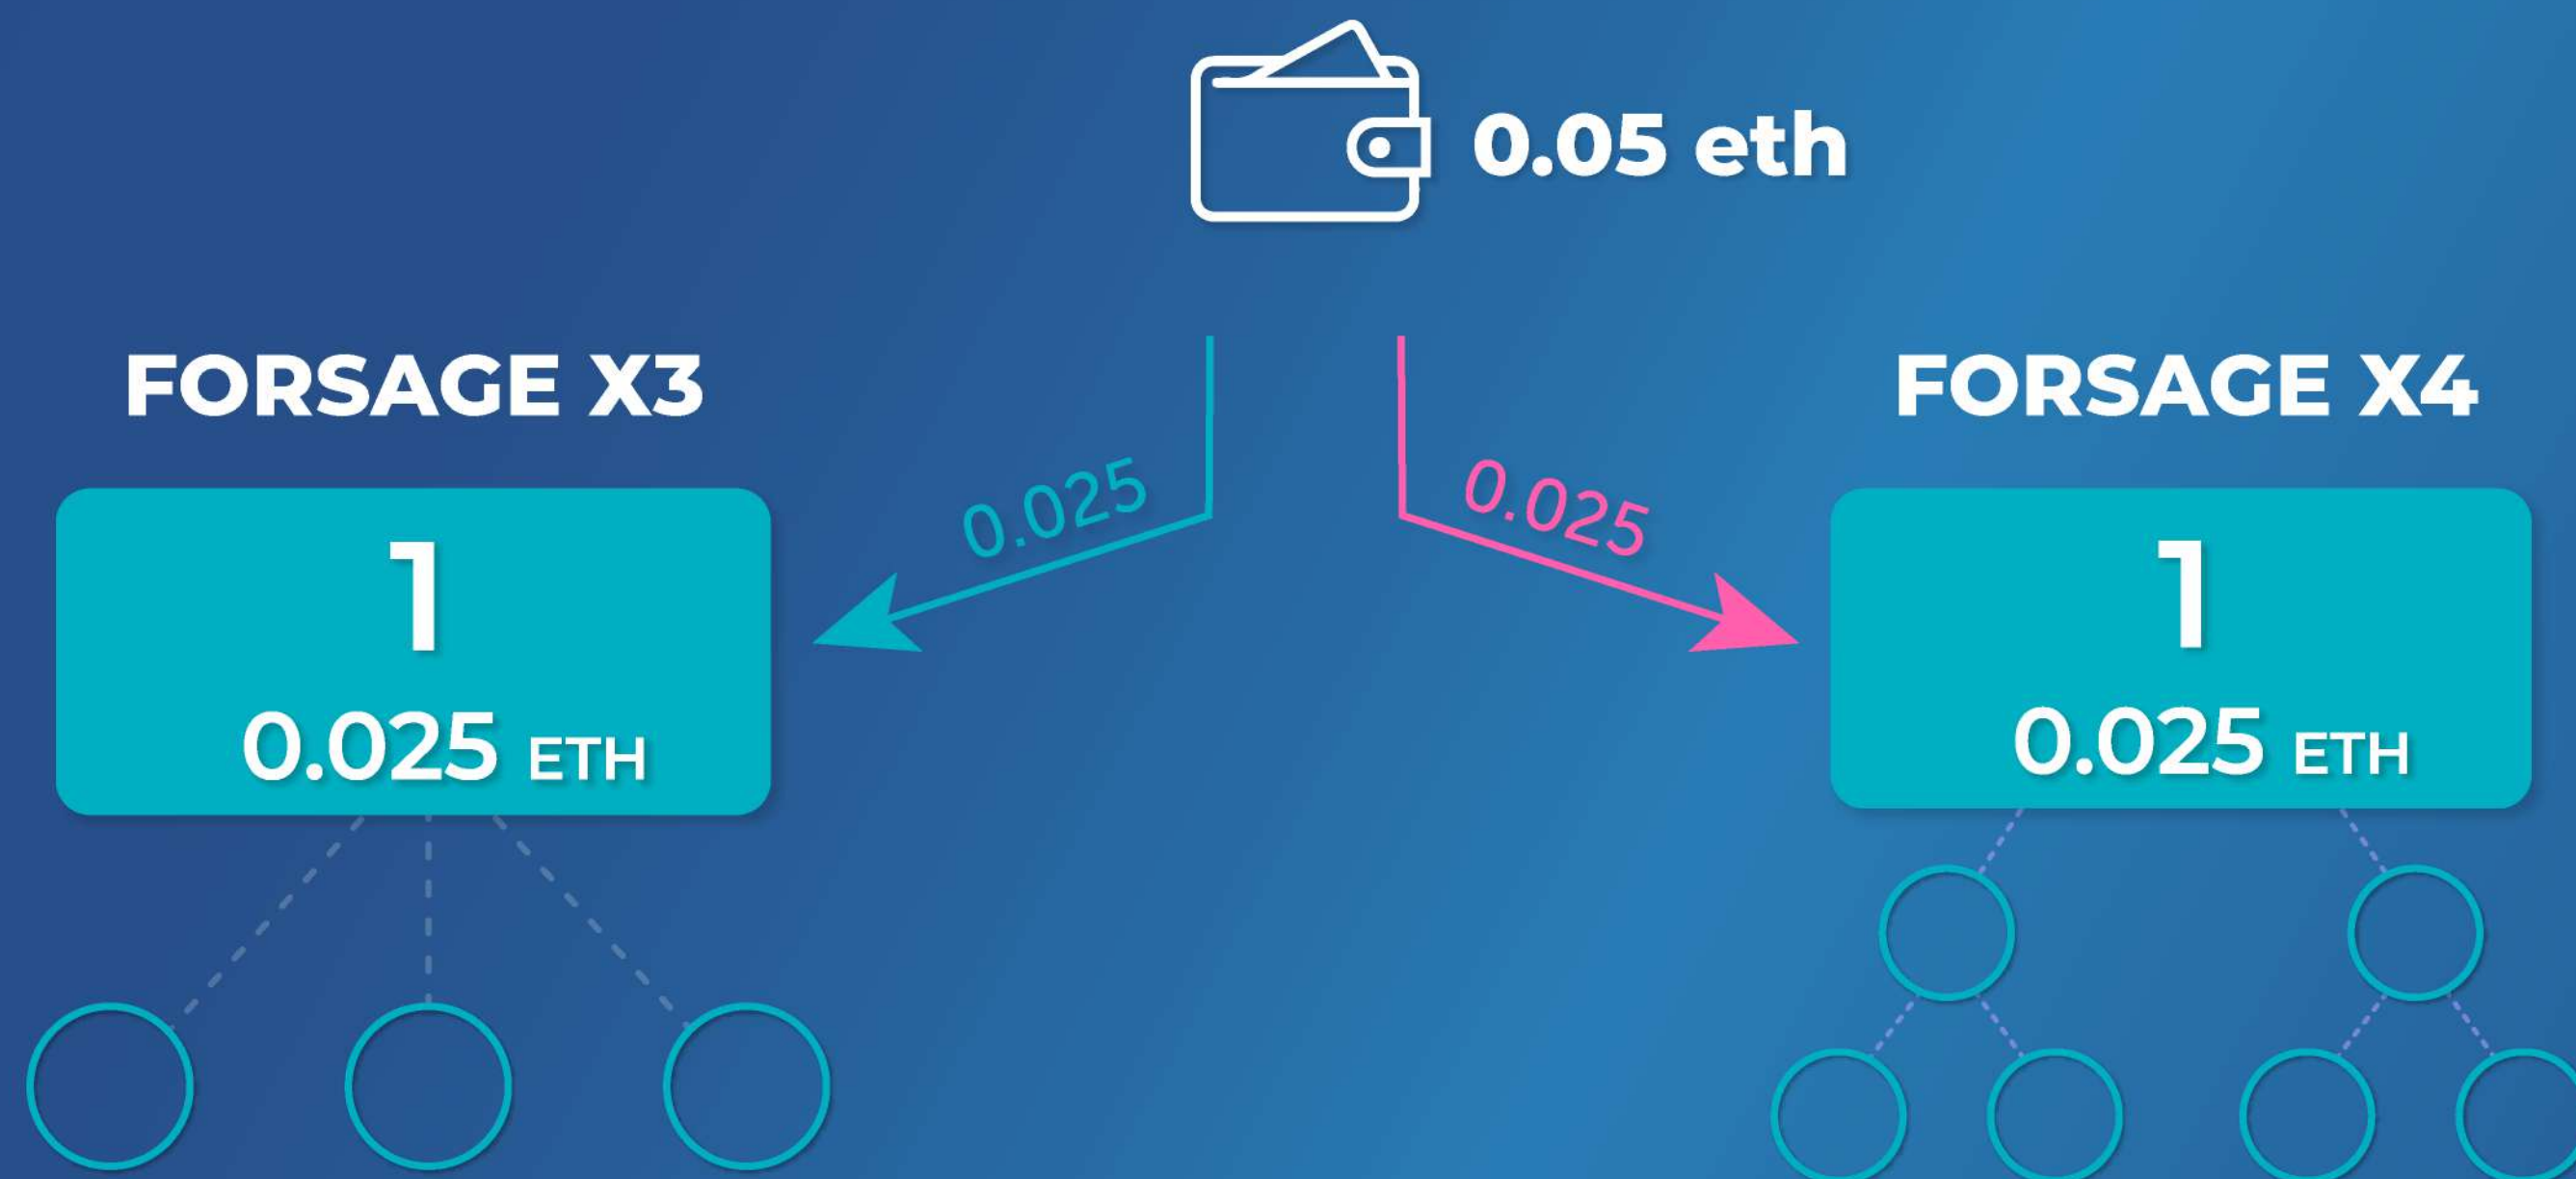

How many slots can be activated immediately? As much as you want! At least all twelve at once!

They have no expiration date, so you can not be afraid that they will burn. All active slots move and bring you revenue in parallel

REGISTRATION

The first slot of each program costs **0.025 eth**. They are bought together; separately, the first slot cannot be taken. Accordingly, the start to the matrix is generally **0.05 eth**. You can purchase all further slots separately, in order from the smaller to the larger. It is impossible to buy a third slot without having a second open.

FORSAGE X3

All partners in your slots of the **Forsage x3** program are your personally referral partners. When you invite partners, they take places under you. The distribution of payments when filling out the matrix automatically occurs as follows:

-  The first referral partner takes a place under you. 100% payout goes to your personal wallet
-  The second referral partner takes second place below you. Payment is also instantly credited to your personal wallet.
-  The third partner takes third place below you. You again receive 100% income, but in the form of **REINVEST**.

REINVEST opens the same slot for you again, and you continue to receive income from it. Reopening the slot, you take next free place in your superior partners' slot. Accordingly, 100% for reinvestment is transferred to your superior.

FORSAGE X4

ID↑

ID

In parallel, the **FORSAGE X4** program also works for you, here an overflow system is organized from **above and from below**. We are building a team together. There may be at least all of you invited, at least not one invited by you, or mixed.

Partners who takes two places below you in the first line are two places in the second line of the higher. A 100% payment goes to the wallet of your higher partner.

You also receive income from the second line, 100% from four people. Of these, 3 payments go instantly to your wallet.

The last payout is the closing slot, and it also makes a reinvest, buying you the same slot again, and the payment of 100% is transferred to your higher partner.

REINVEST

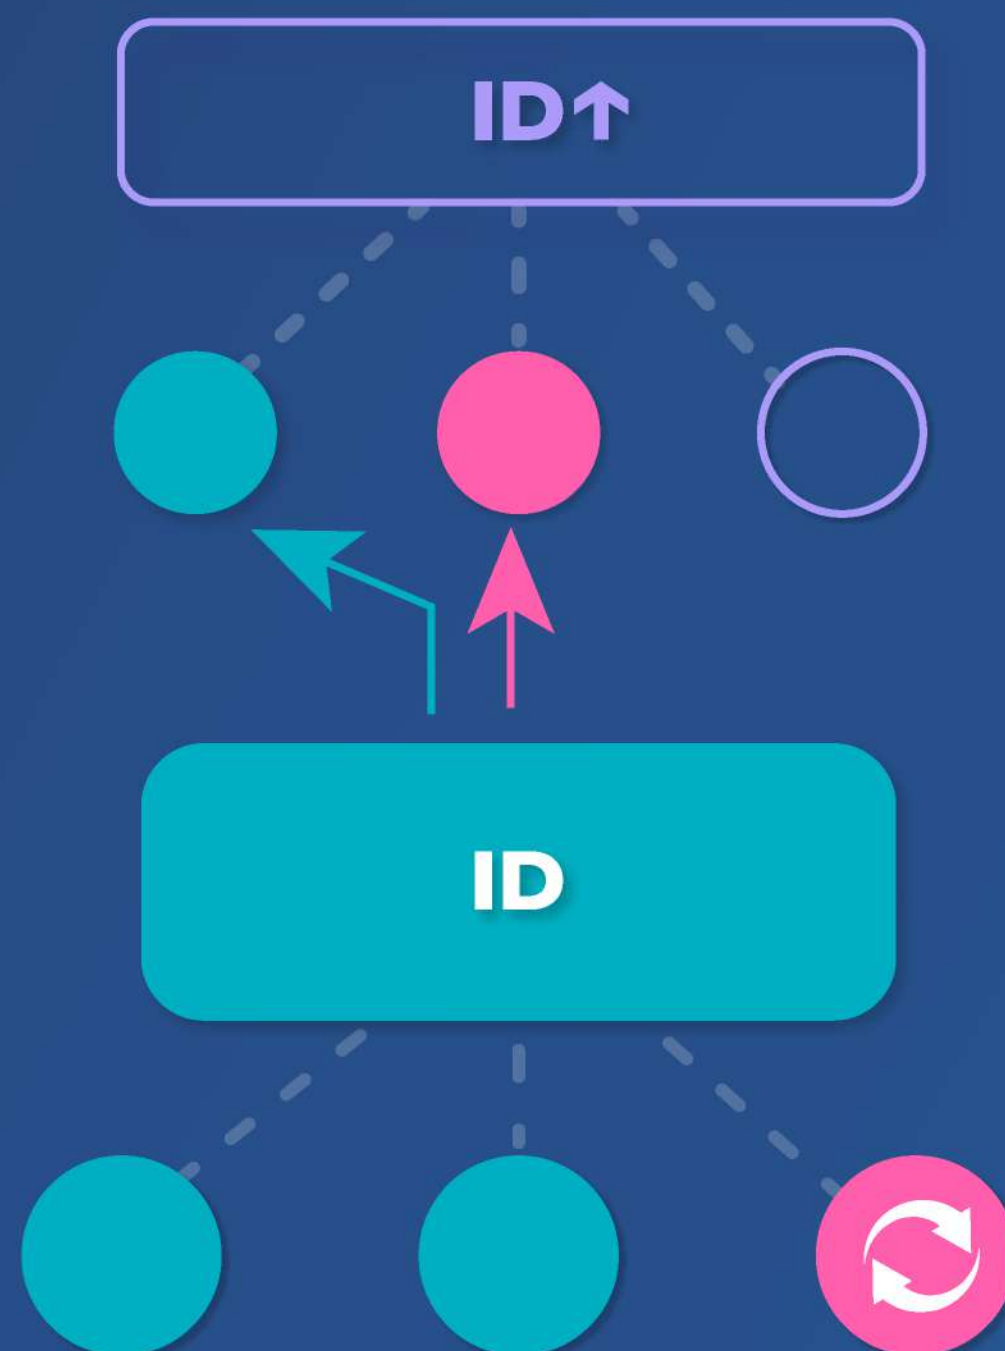

REINVEST – this is the re-opening (purchase) of the slot at the current level.

Reinvest opens the same slot for you again, and you continue to receive income from it. Without reinvestment, this slot would close, and that's it.

Reinvest takes place automatically, as soon as you occupy the last free place, the current slot closes and goes to the archive.

You re-occupy the free space in the slot with a higher partner and a new slot with free places opens for you, and 100% payment goes to the wallet of your higher partner.

Similarly, your referral partners will have reinvestments, and you will instantly receive income every time.

UPGRADE

UPGRADE – is the opening (purchase) of the next slot of a more expensive level. It is done once at the first opening of the slot. The payment goes to your superior partner, provided that he has a slot of this level.

There is enough income from each slot to reinvest the slot of the same level and buy a slot of the next level.

You decide whether to purchase the next level slot!
A reinvestment of the slot occurs automatically. If the next slot is not open for you, then from the second round, after reinvestment, all payments will be redirected to a higher partner.

When you buy the necessary slot, then at the next reinvest your referral partner will take a place under you, and with each reinvest will take a place under you again.

Lost profit – payment left to a higher partner, due to the lack of an upgrade to a more expensive slot.

Extra profit - payment received to you at the expense of the Lost profit of a lower partner.

OVERFLOWS, OVERTAKING AND RETURNS

- personal partner
- overflow (personally invited partner of your superior)
- overflow from below (personally invited partner of your downline)
- partner who overtook his superior

You can **overtake** your superior partner by opening slots which he has not yet reached.

In this case, you get up to his superior partner, the closest who has such level of the slot, and the income goes to him.

If he doesn't have this slot available, then in the same way you are already overtaking two superiors until the system finds a partner who already has active slot of this level.

Referral link returns the partners. This means that when your superior buys this slot, then the next reinvest, you will again take a place under him.

PROFIT

Forsage x3

	Level price, eth	profit, eth	profit, \$
1	0.025	0.1	\$ 25
2	0.05	0.4	\$ 100
3	0.1	1.1	\$ 275
4	0.2	2.6	\$ 650
5	0.4	5.7	\$1 425
6	0.8	12	\$3 000
7	1.6	24.7	\$6 175
8	3.2	50.2	\$12 550
9	6.4	101.3	\$25 325
10	12.8	203.6	\$50 900
11	25.6	408.3	\$102 075
12	51.2	817.8	\$204 450

*1 ETH = \$250

The calculations are underestimated and made at the very minimum indicators, which in principle can not be, because at the time when you buy a level 12 slot, you will have many times more reinvestments of the low level slots

In fact, if have two with a 12 level slot, then the calculations can be multiplied by 2, 3, 5 .. times

More details: [FORSAGE](#)

The minimum income from each partner who has reached 12 level of the slot

TERMS AND DEFINITIONS

SUPERIOR PARTNER - a person whose referral link you have registered for.

REFERRAL PARTNER - a partner registered with your referral link

UPGRADE – is the opening (purchase) of the next slot of a more expensive level

REINVEST – is an automatic re-opening (purchase) of the slot of the current level

Lost profit – payment left to a higher partner, due to the lack of an upgrade to a more expensive slot.

Extra profit – payment received to you at the expense of the Lost profit of a lower partner.

Overflow from a superior – a partner of your superior partner who has closed a place in your slot.

Overflow from a downstream – a partner of your downline who has closed a place in your slot.

Overtaking – the purchase by a lower partner of a more expensive slot, which you don't have yet.
